Career Objective

Innovative and results-driven React Developer seeking to leverage over two years of experience in web application development to contribute to a dynamic team. Passionate about creating efficient, scalable, and user-friendly solutions that enhance user experiences and drive business success. Eager to further develop my skills in a challenging environment while collaborating with talented professionals to deliver cutting-edge web technologies.

Profile Summary

- Highly skilled React Developer with over two years of experience in web application development.
- Proficient in modern web technologies including ReactJS, Next.js, Redux, and AngularJS.
- Demonstrated expertise in optimizing performance and implementing state management.
- Adheres to best practices in code quality and application design.
- Strong problem-solving abilities and effective communication skills.
- Proven leadership skills through successful project completions and team collaboration.
- Committed to continuous learning and staying updated with the latest industry trends.

Skills

- **Web Development:**
 - **ReactJS:** Expertise in building dynamic and responsive web applications.
 - **Next.js:** Proficient in server-side rendering and static site generation.
 - **AngularJS:** Experience in developing modular and scalable web applications.
 - **HTML5 & CSS3:** Strong understanding of web standards and styling.
 - **JavaScript:** Advanced knowledge of ES6/7 syntax and features.
 - **Responsive Web Design:** Ensuring applications are optimized for various devices and screen sizes.
 - **UI Frameworks/Libraries:** **Material UI**, Component library for React applications, providing pre-designed components for faster development.
- **State Management:**
 - **Redux Toolkit:** Efficient state management for complex applications.
- **CMS and CRM:**
 - **Sitecore:** Experience with content management systems.
 - **Salesforce CRM & LWC:** Knowledge of customer relationship management and Lightning Web Components.
- **Version Control:** **Git**, Version control system for tracking changes in source code during software development, enabling collaboration and code management.
- **Development Practices:**
 - **Agile & DevOps:** Familiar with agile methodologies and DevOps practices.
 - **Unit Testing & Accessibility:** Strong focus on test-driven development and ensuring code reliability with accessibility.
- **Other:**
 - **Linux:** Competent in using Linux for development and deployment.
 - **Leadership & Communication:** Proven leadership skills and effective communication abilities.

Work Experience

React Developer

Atos/Eviden | Feb 2022 - Present

- **UI Component Development:** Designed and developed reusable UI components and front-end libraries using ReactJS, ensuring future scalability and maintainability. Created component libraries to streamline the development process across multiple projects.
- **Performance Optimization:** Optimized components for maximum performance across a variety of web-capable devices and browsers, enhancing user experience and application efficiency. Conducted performance audits and implemented best practices to improve load times and responsiveness.
- **State Management:** Utilized Redux for efficient and effective state management, streamlining complex application data flows. Implemented Redux Thunk for asynchronous operations and maintained state consistency across the application.
- **Modern Web Technologies:** Developed application components using modern web technologies such as ES6/7, HTML5, CSS3, and JavaScript. Applied best practices in code quality, modularity, and maintainability.
- **Testing and Quality Assurance:** Implemented automated testing platforms and unit tests using tools like Jest and Enzyme, ensuring high code quality and reliability. Developed test cases for critical components and integrated testing into the CI/CD pipeline.
- **Next.js Development:** Led the design, development, and implementation of web applications using Next.js, following industry standards and best practices. Leveraged server-side rendering and static site generation to enhance SEO and performance.
- **Team Collaboration:** Collaborated with cross-functional teams, including designers, back-end developers, and product managers, to identify requirements, design solutions, and deliver projects on time. Participated in agile ceremonies, such as sprint planning, daily stand-ups, and retrospectives.
- **Mentorship and Code Reviews:** Mentored junior developers and conducted code reviews, promoting best practices and knowledge sharing within the team. Provided constructive feedback and guided team members in adopting new technologies and methodologies.

Certification and Achievements

- Azure Fundamentals (AZ-900)
- Received the most prestigious award in the company.
- Received a Spot Award for going the extra mile in project delivery and team collaboration.

Educational Qualifications

Qualification	College/School	Marks
Bachelors in Electrical Engineering (2018-2021)	AISSMS College of Engineering, Pune	8.59 CGPA
Diploma in Electrical Engineering (2015-2018)	Sanjay Ghodawat Polytechnic	87.78 %
